

# I-MAX WALL

*Designed to be installed on a wall rather than within our window display solutions, the Wall Format I-Max frame features a deep black border and LED illumination. The poster frame is available in A-series sizes from A4 to A0 and can be hung in either portrait or landscape orientation thanks to dual fixing points on the reverse of each illuminated poster frame.*

## KEY FEATURES

### CONTEMPORARY DESIGN

Featuring a modern black frame with hidden fixing points

### SUPER-SLIM DISPLAY

A depth of just 7mm is consistent throughout A4 to A0 size frames

### HIGH LUMINOSITY

Delivering 5000 Lux, this is a highly luminous lightbox

### A COORDINATED SOLUTION

Match with our double-sided I-Max frames to build uniform displays

## DETAIL

This LED poster frame features a sleek 7mm depth. The frames are single-sided and deliver 5000 Lux light intensity while drawing 5W for an A4 frame and 35W for the largest A0 frame. The poster frames have a magnetic opening system that means graphic updates can be managed easily and quickly.

The Wall Format I-Max frames can be coordinated with the double-sided window display I-Max frames to create a uniform solution for a variety of visual communication requirements. Additional options include two panoramic style frames which are 50cm tall and come in widths of 100cm and 150cm. The panoramic frames are ideal for long, narrow images such as travel photography and 360 degree compositions.
