The KeyGuard Pro

provides secure larger key storage capacity that accommodates more keys and access cards.

The innovative, familiar phone pad style punch button face allows flexibility in entering letters or numbers as a combination, allowing a company name or easily remembered word to be used. Comes with optional front cover which can be easily removed. Shackle is secured from inside and can only be accessed once door is open. If desired, that shackle can be locked via padlock to the right if user does not want those accessing keys to remove the lockbox.
